SANTINI WORLD

Quality of products and service, innovation, style, and attention to details are the characteristics that differentiate us and on which we constantly work.

All our technical garments have been produced in Italy since 1965.

Santini is not only a brand, a name, a symbol, Santini is a production company that has a beating heart, fueled by a deep passion for cycling.

#santiniracewear

#santinirainbow

SINCE 1988

A scenic landscape featuring a winding asphalt road that curves through lush green hills. The sky is filled with dramatic, layered clouds, with a hint of sunset or sunrise light on the horizon. The overall mood is serene and adventurous.

COLLECTION 2017

You are getting ready for a ride. Your bike is waiting for you. Helmet, shoes and glasses are ready but you are still unsure on what to wear. You know this is an important decision. When you ride you don't want distractions. You just want to feel your muscles work, your steady breathing, your heart beating, enjoy the view and think about nothing. Choose clothing that reflects your personality, the kind of rider you are, the goal you have. Most importantly, choose something that makes you feel good, whatever the weather.

In this brochure you will find our suggestions for clothing suitable for every ride, every different combination of temperature and weather conditions.

Now you're ready to go.

The Santini logo is displayed in a bold, italicized font. To its right, the words "MADE IN ITALY" are written vertically in a smaller font. Below the logo, the word "COLLEZIONE" is written in a clean, sans-serif font.

SANTINI PEOPLE

For over 50 years we have put at the center of our world the person and his passion, the cyclist and his bike.

Each season, each collection, the aim is to always improve our products, to provide you with the clothing that you dream and deserve to live your passion, to wear during your training and your races, to challenge your limits in all weather conditions.

Because YOU are the real center of OUR world and when you wear one of our products, you become part of our family.

1 PERFECT FIT

Aerodynamic fit and elastic grippers with anti-slip grip

2 COMFORT AND BREATHABILITY

Elastic jacquard seamless braces, with breathable mesh on the back

3 GREAT ANTI-SHOCK PROTECTION

New C3 chamois, with protective shell, ergonomic 3d surface with different densities and thicknesses

The PHOTON bib-shorts are the perfect complement to your Photon ¾ sleeve jersey. Designed with an aerodynamic cut, they are made with Thunderbike Power fabric that helps reduce muscle stress due to a light, constant compression and Eschler fabric inserts on the sidebands. Raw cut, anti-sliding elasticated leg cuffs cover the muscles like a second skin keeping the shorts always in position. Innovative braces, made of seamless jacquard elastic, are connected by a single elastic mesh insert on the center of the back to allow for greater breathability and perfect fit. Thanks to the innovative C3 chamois with protective shell, multiple-density padding and ergonomic 3D surface, the Photon bib-shorts are incredibly comfortable and also suitable for long distances.

1 TESTED BY THE SLOVAK NATIONAL TEAM

Worn by the Slovak National athletes at the World Championships in Richmond 2015. Gold medal winner.

2 BREATHABLE AND LIGHT

Made with a combination of super lightweight fabrics and breathable stretch mesh

3 PERFECT AERODYNAMICS

aerodynamic cut with leg elastic bands internally coated with non-slip grip for perfect fit

4 ANTI-SHOCK PROTECTION

New C3 chamois, with protective shell, ergonomic 3D surface with different densities and thicknesses

Created in collaboration with the Slovak National cycling team, this super aerodynamic extra light skinsuit is made for world champions!

Designed and developed using the most advanced technical materials, the IRIDE road skinsuit is highly breathable and aerodynamic. The front is made entirely of the innovative Spider 700 mesh and is closed by a double opening zip. The back, in Lycra Monica, ensures maximum adherence to the body. The structure of the shorts has been designed around the C3 chamois, the most innovative of our range, made with an advanced technique (no seams or glue and a soft shell front panel) for maximum shock protection and an unprecedented breathability. Inserts in Vergelle fabric provide incredible comfort and prevent unpleasant irritation due to rubbing.

At the bottom of the legs, the anti-slip grippers guarantee perfect adherence to the body for an impeccable fit. The triple back pocket allows you to carry with you everything you need, making this skinsuit an excellent alternative to an aero two-piece.

1 BRACES WITH POCKET

Ergonomic shoulder straps made of light and breathable mesh with radio / mp3 player pocket

2 ANTI-SHOCK PROTECTION

New C3 chamois, with protective shell, ergonomic 3d surface with different densities and thicknesses

3 AERODYNAMIC EFFECT

Aerodynamic cut with bottom leg internally coated with non-slip grip

Sleek Plus bib-shorts are designed to ensure maximum performance on the bike. Built with an aerodynamic cut, they are made with Thunderbike Power, a technical fabric that helps to reduce muscle stress thanks to the slight compressive effect. The mesh bibs with Y-cut guarantee maximum comfort, while the shaped elastic leg grippers with internal non-slip grip on the legs ensure a snug fit to the muscle while pedaling. The Sleek Plus bib-shorts structure has been designed around the C3 chamois, the most innovative of our range, made with an advanced technique (no seams or glue and a soft shell front panel) for maximum shock protection and extraordinary breathability.

TONO BIB-SHORTS

INNOVATIVE “TATTOO” EFFECT BIB-SHORTS WITH GRIPPED SIDE BANDS
CODE: FS 1177 NAT TONO

SIZE
XS | S | M | L | XL | XXL | 3XL | 4XL

 +18/+35

Have you ever tried a pair of bib-shorts so comfortable that you cannot feel them? So lightweight and comfortable that they feel like a second skin? Now you can! Our Tono bib-shorts are constructed with the innovative New Monica fabric that, thanks to the internal silicon dotted grip that covers the entire side band, creates a “tattoo” effect adhering perfectly to the skin without constraining. The number of seams is minimized and there is no elastic at the bottom of the leg. Elasticated seamless braces are lightweight and super-stretchy, ideal for any type of body. Their maximum extension allows excellent fit even for the tallest riders. The NAT chamois, with anti-shock and ice-effect NEXT gel core keeps you cool even after long hours in the saddle. You will love them!

- 1 EXCELLENT FIT**
Bottom elastic band with internal silicone for a great fit
- 2 BREATHABLE AND LIGHTWEIGHT**
Made of Kontatto® microfiber, light and soft on the skin
- 3 COMFORT AND PERFORMANCE**
Maximum freedom of movement and comfort guaranteed!

The Karma jersey is inspired and designed on the cut and fabrics of the official UCI World Champion jersey. It is made of Kontatto® fabric on front and sides, an extremely light and soft microfiber with a high capacity to absorb moisture and excellent breathability. Back and shoulders in Cyber-Rider fabric guarantee excellent temperature control and exceptional comfort.

The cut, more elongated on the back, and the elastic waistband with silicone gripper on the bottom, provide greater stability and adhesion to the body. Karma has a long front zip and triple wide back pocket, to store everything you need.

1 TRIPLE BACK POCKET

Perfect to take with you what you need

2 RELAXED CLASSIC FIT

Classic fit, not too tight on the body

3 LIGHTWEIGHT AND BREATHABLE

Made with Pacman micro-mesh for great breathability

The Beat jersey is your comfort jersey. Great for the hot summer days! Made of Pacman super-light and elastic micro-mesh on front and back and fresh-effect Artico on sides and sleeves, it will keep you dry and comfortable during your ride. Finished with a long zipper for added ventilation and a triple back pocket to store everything you need, the Beat jersey is available in three colours. You just need to pick your favourite!

MULTI-WEATHER COLLECTION

The BETA Multi-weather project was born from the need to create products with the ability to deliver and perform across a wide range of temperatures. The idea was developed on the basis of a survey on the average experience of a cyclist during a workout with a minimum duration of 4 hours.* The research shows that, over an average four-hour training ride, temperatures and weather can change rapidly, forcing us to carry different types of clothing to be ready all conditions. The Santini BETA product offer a clever solution to this problem. The use of on single layer that responds to a wide range of temperature and conditions allows you to avoid overdressing. You just need to find the BETA product that suits your needs!

- 1 SADDLE COMFORT**
GIT chamois with anti-shock twist gel core
- 2 WATER RESISTANT**
Acquazero water-resistant treatment
- 3 HEAT GENERATING**
The behot fabric generates heat with the movement of your legs
- 4 HIGH VISIBILITY**
Reflective inserts on the calves for high visibility in the dark

Most tights simply insulate you from the cold but, thanks to the Heat Generating Technology of the BeHot fabric, we have created a pair of tights that not only insulate from the cold but also generates additional heat - up to 4 degrees Centigrade (10 degrees Fahrenheit) as your body moves. We've also added our Acquazero treatment to make sure you not only stay toasty warm but dry too. BeHot features a breathable mesh insert on the back to prevent you from overheating and is ideal for long-distance rides thanks to the GIT chamois with shock absorbing Twist gel core. Comfort and warmth are also assured thanks to the high bib cut and the frontal zip.

- 1 SLIM FIT**
Slim fit, ideal to be worn at races
- 2 RAIN-PROOF**
Waterproof zips and taped seams for total protection from rain and wind
- 3 HIGH VISIBILITY**
Reflective detail on the back for high visibility in the dark or fog

Now you have no more excuses; with our Guard jacket you can train and compete even in the rain! Made of an elastic fabric coupled to a breathable hydrophilic membrane to ensure maximum protection from rain and wind, Guard features thermos-taped stitching with a waterproof zipper to have you 100% covered! The inside collar and cuffs are made of soft and warm thermofleece. The reflective detail on the back ensures maximum visibility on the road in the dark. The side pocket with waterproof zipper allows you to carry everything you need with no risk of rain damage. Guard is super-light and pocketable making it easy to carry it in your jersey back pocket and has a slim fit which makes it ideal also when you race.

COLD COLLECTION

Facing cold temperatures is one of the most difficult challenges for a cyclist. The use of suitable clothing in this case is even more important and can positively affect your workout. Choose what to wear based on the outside temperature and your needs, always wear a base-layer in contact with the skin, and don't forget to keep your hands, head, and feet warm.

MULTI-WEATHER COLLECTION

Perfect for you who love to pedal for long hours and look for a product that can perform across a wide range of temperature. The garments in the multi-weather range were developed on the basis of a survey on the average experience of a cyclist during a workout with a minimum duration of 4 hours.* The research shows that, over an average four-hour training ride, temperatures and weather can change rapidly, forcing us to carry different type of clothing to face any condition. The Santini BETA product offers a clever solution to this problem. The use of one single layer that responds to a wide range of temperature and conditions allows you to avoid overdressing. You just need to find the BETA product that suits your needs!

*Source : IPSOS Consumer Segmentation Cycling in 2013 in Germany, UK, Italy and USA (No. 6,000 respondents)

BETA JACKET

THERMAL BALANCE AND WEATHER PROTECTION IN ONE LAYER ONLY
CODE: FW 517 75 BETA

SIZE
XXS | XS | S | M | L | XL | XXL | 3XL

GI

This is the version for women of our multi-weather Beta jacket. The Beta jacket was created to ensure a perfect thermal balance in different climatic conditions. Built with Windstopper Xfree 210 fabric, Beta is able to keep you warm in temperatures as low as 5°C (40°F) as if you were wearing a jersey and a jacket. It feels incredibly breathable and is light enough to be suitable for temperatures up to 18°C (65°F). Extremely versatile, Beta also offers protection from wind and rain thanks to the Windstopper membrane. A garment so complete you won't need anything else!

SANTINI MAGNETO

CODE: HZ 901 M1

SIZE
ONE SIZE

Magneto works together with our helmets to create a completely new experience. Because our eyewear does not have traditional temples, they don't create pressure points, making them more comfortable than traditional sunglasses, even during long rides. Magnets in the helmet tabs connect with two Magclips that attach to your helmet strap. When you don't need your glasses on, the clever Magdoc system provides a way for you to store your sunglasses on your helmet.

TECHNOLOGIES

As crucial as it is to us to make our clothing look superb, aesthetics alone are never enough. The advanced technologies employed in the materials used to design and make Santini clothing conspire to create the amazing comfort, the perfect fit, and the for-all-conditions performance that consistently combine to give us the edge, as well as giving you the edge when it comes to knowing exactly what to wear to suit every ride. We design for the most demanding riders on the planet. What's best for them is also best for any rider who simply prefers to wear clothing that will maximise their comfort and performance without exhibiting any downsides. You can see from our technical materials listing that there is now massive variety in fabrics and fibres to choose from. Words like Polyester don't mean that much on their own but it's amazing how many differences in performance, elasticity, comfort and durability you can dial into cycling clothing if you're looking for special properties in the fit or ride-feel of a material.

TECHNOLOGIES

MULTIWEATHER

BETA with WINDSTOPPER® XFREE

The BETA_Multiweather project was born from the need to create products with the ability to deliver and perform in a wide range of temperatures. The idea was developed on the basis of a survey on the average experience of a cyclist during a workout with a minimum duration of 4 hours *. The results of this research show that over a 4 hours of training, temperatures and weather can change rapidly, forcing us to carry different types of clothing to face any condition. The garments of the Santini BETA range offer a clever solution to this problem using the innovative Windstopper fabrics Laminated and XFree; one single layer that responds to a wide range of temperatures and conditions saving you from overdressing. Discover the BETA product that best suits your needs: • WINDSTOPPER LAMINATED 178 (Beta jersey + arm-warmers) - durable, windproof, breathable and elastic, it provides thermal insulation in colder temperatures (10-15°) and reduces the risk of overheating providing extreme breathability with warmer temperatures (15-20°). • Xfree 210 (Beta jacket) - Four-way stretch fabric with internal light thermofleece, X-FREE has excellent elasticity, tear strength, and recovery. The high level of stretch gives it a great anatomic and aerodynamic fit. X-FREE is water-resistant, windproof, and guarantees perfect thermal balance.

AERODYNAMICS & BREATHABILITY

SLEEK PLUS - IRIDE - PHOTON

We always work with pro riders to create the most aerodynamic performance clothing on the market. Thanks to the valuable feedback of the Slovak national cycling team, the Iride was born; an incredibly breathable aerodynamic skinsuit, designed and developed specifically for road races that has become World Champion of skinsuits! Iride has been designed to ensure aerodynamics yet lightweight comfort, making it ideal to be used for long races, as is our complete Sleek Plus range which has been worn and tested by the riders of the Lotto Jumbo Pro Cycling team. In collaboration with the athletes of the Lotto-Jumbo team, we have also designed the PHOTON line, unique because it combines an innovative approach with a combination of technologically advanced fabrics to offer light weight, comfort, aerodynamics, and protection from UV rays.

COMPRESSION/PERFECT FIT

THUNDERBIKE POWER

Sitip's Thunderbike Power fabric offers a new concept in muscle compression. With a high thread density and a perfect elastic composition, it's light and compact at the same time as enabling optimum muscle recovery, maximum coverage and high resistance to pilling and abrasion. We use Thunderbike Power in the following bib-shorts: Sleek Plus and Tono (Men's collection), Stella and Wave (Women's collection)

HEAT GENERATING TECHNOLOGY

BEHOT

Due to Heat-Generating Technology, the BeHot the fabric not only insulates against cold but generates additional heat up to 4 ° C due to the movement of your body. The movement extends and compresses the BeHot fabric while its fibres generate heat. In addition, the BeHot fabric is able to not dissipate the accumulated heat. All this with the maximum breathability and comfort. You can find the fabric Behot in our Behot tights.

NOTE: For technical or commercial reasons, Santini reserve the right to make changes at any time to the design and features of the garments in this catalogue. Due to the limitations of print media the actual colours of garments and products in this catalogue can in some cases differ slightly in reality.

PROTEZIONE DAL VENTO

ANEMONE

Anemone is an innovative material we have chosen to implement in our windproof jackets in the 2017 collection. Extremely elastic and lightweight, it is windproof and water-repellent and provides excellent breathability as well as a perfect fit. You can find it in the Aries and Virgo spray jackets.

PROTEZIONE DALLA PIOGGIA

ACQUAZERO

Sitip's Acquazero treatment makes fabric reliably water-resistant (ISO 29865 certified) for the first 60 minutes of use without compromising comfort, elasticity, softness, or warmth. It also ensures maximum breathability, makes the fabric UV and chlorine-resistant, and guarantees excellent durability after repeated uses and laundering. You can find the Acquazero treatment in the Vega kit and the H2O Bhot accessories.

TEMPO

Tempo is an incredible three-layered windproof fabric with Hydrophilic Zerowind membrane. It is light, breathable, soft, windproof, and water-repellent. Ideal for mid-season jackets, you can find it in our Reef rain long sleeve jersey.

WARMSANT by ZEROWIND®

Warsant is a fabric made of two layers; an external polyester with water-repellent treatment and an internal thermofleece which is very light and warm. Warsant also features the 'WIND OUT' treatment, which makes it breathable and windproof. It's a great fabric for winter garments and is available in our Impero jacket.

PADDINGS FOR MEN

All the Santini paddings are exclusively designed and developed in-house in Italy and are the result of scientific research and rigorous testing to offer you extreme comfort and performance. You just need to decide which one fits you best!

C3

THREE TIMES MORE PROTECTION, COMFORT, AND LIGHTNESS!

An unprecedented innovation! C3 is built through a new process called Carving Technology, which consists in digging (carving) two overlapping foam cores (5mm perforated foam density 60+10mm perforated with density 80) to reduce volume and thickness to create multiple densities without stitching. This special technique allows the pad maximum shock protection, incredible lightness, breathability, and perfect fit because it adheres better to the body allowing freedom of movement. Two gel inserts positioned in the support of the bones of the ischium (sit bones) allow neutralization of vibrations when the pad is under stress. Innovative is also the construction of the front panel. A soft shell (Conch) that protects the genitals and promotes perspiration, and the closed profile with heat sealing (Closed edge) that allows a more harmonious application of the chamois onto the shorts. C3 is designed to follow the shape of the male anatomy offering protection to both the bones of the ischium and perineal area and is soft and breathable on the skin thanks to an antibacterial microfiber layer.

RIDE DURATION

1h 2h 3h 4h 5h 6h 7h 8h

NAT - NEXT TECHNOLOGY

THE PERFECT CHAMOIS FOR THE HOTTEST DAYS

NAT (NEXT, Airflow, Thermoshock) is a revolutionary new chamois – it is the first Santini padding from the NEXT generation. The NEXT core is enclosed between two foam layers ranging from 2 to 4mm thick. The top layer is an antibacterial microfibre that guarantees maximum hygiene while in contact with the skin. At the base of the padding, two anatomical wings in soft microfibre protect the most sensitive areas from irritation and soreness.

RIDE DURATION

1h 2h 3h 4h 5h 6h 7h 8h

GItevo

THE EVOLUTION OF THE ORIGINAL TWIST GEL CORE CHAMOIS

The technological evolution of the original bestseller GIT chamois with Twist Gel core, the silicone gel that absorbs shock steadily and gradually. GItevo is even more performing because it is constructed with a Carving process that is able to create thicknesses without seams and sticking, reducing the weight and increasing the softness of the padding. The top layer with antibacterial microfiber and depressions on the surface, offers excellent fit and freedom of movement by protecting from chafing and irritation.

RIDE DURATION

1h 2h 3h 4h 5h 6h 7h 8h

MAX2

GREAT VERSATILITY COOLMAX CHAMOIS

MAX2 represents the evolution of our Coolmax chamois. The anatomical shape and multiple-density foam layer make this padding great for any cycling activity, whether indoors or out. Antibacterial properties, the absence of stitching in contact with the skin, and the central channel in the perineal area assure maximum comfort on the saddle. The MAX2 is also available for kids.

RIDE DURATION

1h 2h 3h 4h 5h 6h 7h 8h

PADDINGS FOR WOMEN

Designed for the female anatomy, the Santini paddings for women are designed and developed in our laboratories to ensure maximum shock-protection and great comfort and are tested by our most demanding professional athletes to offer you always the best. Choose the one that suits more to your riding style and experience the difference!

C3 WOMAN

TOTAL PROTECTION, COMFORT AND LIGHTNESS

An unprecedented innovation! C3W is built through a new process called Carving Technology, which consists in digging (carving) two overlapping foam cores (5mm perforated foam density 60+10mm perforated with density 80) to reduce volume and thickness to create multiple densities without stitching. This special technique allows the pad maximum shock protection, incredible lightness, breathability, and perfect fit because it adheres better to the body allowing freedom of movement. Two gel inserts positioned in the support of the bones of the ischium (sit bones) allow neutralization of vibrations when the pad is under stress. C3W is designed to follow the shape of the female anatomy offering total protection and comfort, and it is soft and breathable on the skin thanks to an antibacterial microfiber layer.

----	----	----	----	----	----	----	----

GIL2

ANTI-SHOCK TWIST GEL CORE CHAMOIS CUT FOR WOMEN

Designed to gently follow female contours, we added two soft anti-chafing microfibre wings to enhance comfort and fit. A layer of gel, placed between two thin foam layers, absorbs shocks reliably and gradually and always returns to its initial shape, even after long hours in the saddle. The upper layer is a soft antibacterial and anti-irritation microfibre, stitched from the inside so that there is no stitching in contact with the skin.

RIDE DURATION

1h	2h	3h	4h	5h	6h	7h	8h
----	----	----	----	----	----	----	----

PRO GRACE

COOLMAX CHAMOIS DESIGNED FOR THE FEMALE ANATOMY

Developed to perfectly follow the contours of the female anatomy, pro GRACE is ideal for any cycling activity, whether indoors or out. The multiple density foam layers have been developed to offer progressive shock absorption: higher in the area in contact with the saddle; lower on the outside. The antibacterial microfibre, the absence of stitching in contact with the skin and the anatomical wings guarantee maximum comfort on the saddle. For great performance without compromising on grace or femininity.
